CONTENT

- Problem Statement
- Need / Motivation
- Exploring the Problem
- Building the Solution
- Expenditure and Revenue

PROBLEM STATEMENT

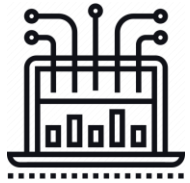
Limited Inter-Faculty Collaboration

Lack of Centralised Information Hub

Barriers to Networking

NEED / MOTIVATION

Collaboration of different schools to boost innovation



No single platform of collaboration

Enhance knowledge sharing easily

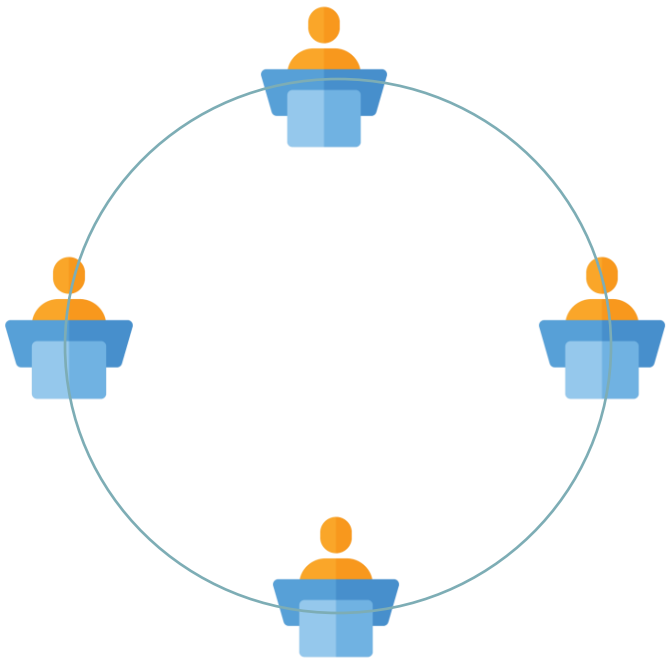
Complex Network of Organisation

Reduce manual efforts of searching

EXPLORING THE PROBLEM

CUSTOMER GROUP

- <u>Lecturers</u> from different departments in organisations like Newcastle University
- The other identified customer groups are **Researchers** and **Students**.



DEVELOPING VALUE PROPOSITION

- Researching on people, schools, events and on-goings
- Finding contact details and availability
- No one-stop solution to understand the school's structure and staff
- Manual efforts and Time consumption to do simple things

- A centralised hub of data
- A medium to find people
- A place to view school's structure
- Easy and quick to access

BUILDING THE SOLUTION

BUSINESS MODEL

KEY RESOURCE & ACTIVITIES

- ✓ Lecturers from different schools
- ✓ Collaboration & Knowledge sharing
- ✓ Less manual efforts

VALUE PROPOSITION

- ✓ Centralised Hub
- ✓ Easy Discovery
- ✓ Dissemination
- ✓ Expertise Sharing
- ✓ Best Practice Promotion

CUSTOMER RELATIONSHIP

- ✓ Customer engagement initiatives i.e. user forums, webinars, and user groups
- ✓ Foster a sense of community
- ✓ Facilitate knowledge sharing

CHANNELS

- ✓ Targeted advertising
- ✓ Content marketing
- ✓ Social media

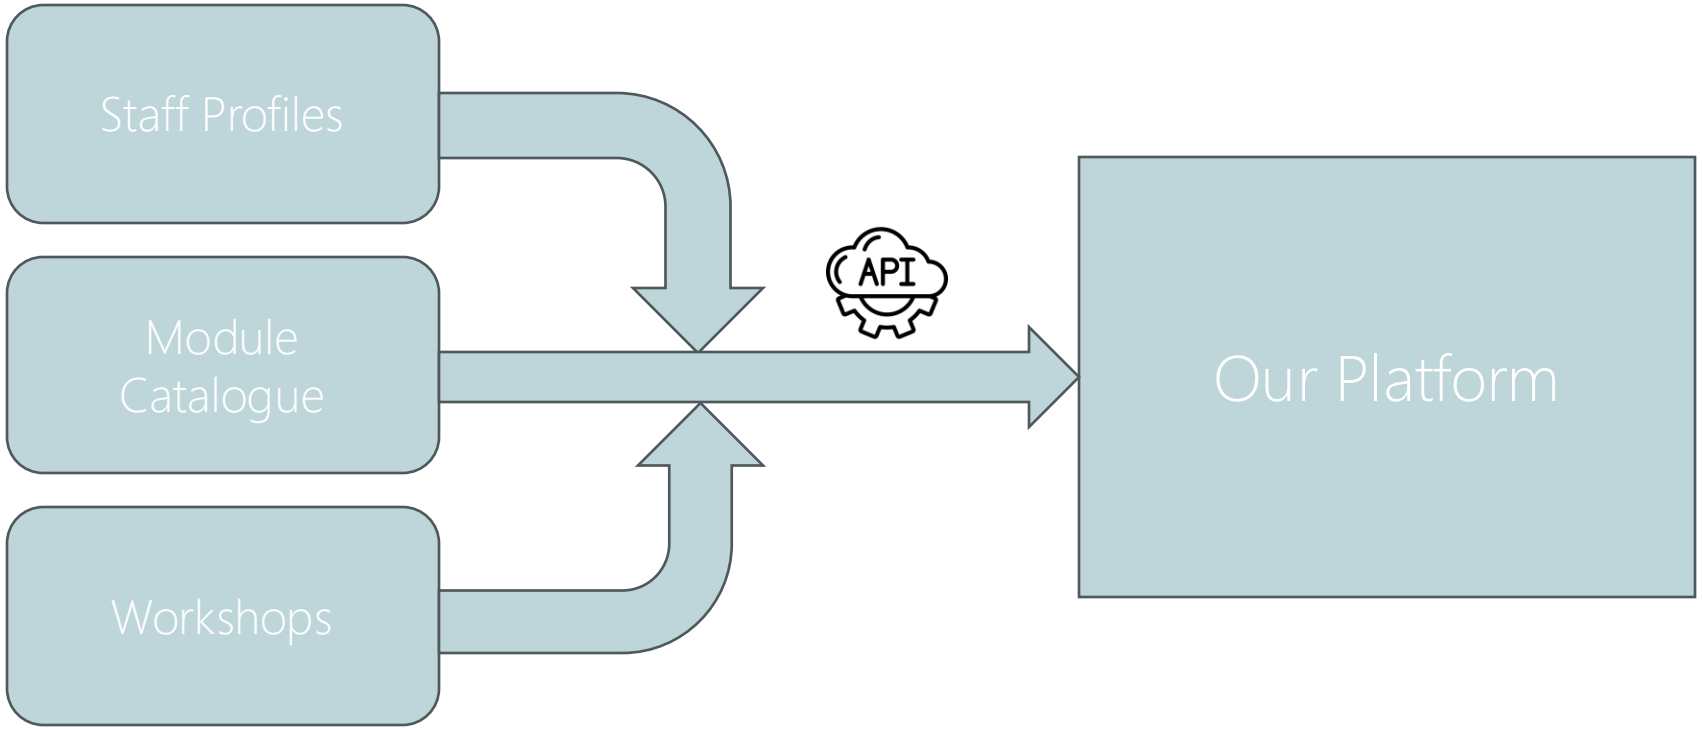
COST & REVENUE

- ✓ Platform Development, Marketing & Sales, Third party app support
- ✓ Subscription & Licensing Fees, Ads and Premium Content

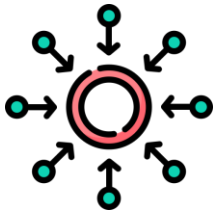
InterAcademix

ASSUMPTION ON HOW DATA GATHERED

Our assumption is that the IT team of the organisation (i.e. NUIT) would have APIs that updates these information automatically

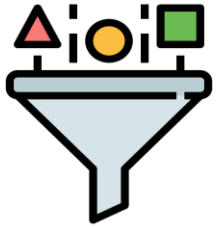


MVP



Centralised Repository

Access to Diverse Educational Resources



Search and Filter Capabilities

Integrated Communication Options

Promotion of Interdisciplinary Collaboration
